RMT Robotics Announces Attendance at Tire Technology Expo 2012 in Booth #8200

RMT industry experts will be on hand to discuss latest trends in robotic tire solutions

Grimsby, Ontario, Canada (Jan. 31, 2012) –RMT Robotics® (www.rmtrobotics.com), a Cimcorp Oy company, is pleased to announce its attendance at the Tire Technology Expo in Cologne, Germany, February 14-16, 2012. RMT experts will be on hand in booth #8200 to comment on the latest robotic tire solutions available in the marketplace.

Doug Pickard, president of RMT Robotics, and Don Heelis, global sales manager – tire systems, will be available on the show floor to discuss your needs and introduce how RMT technology can solve your specific requirements through its committed focus on innovation.

“The Tire Technology Expo provides the ideal venue to meet with tire manufacturers who are interested in finding out how to streamline their operations from component preparation through to final finish and shipping,” said Heelis. “RMT will be on hand to discuss their recent technological advancements in the areas of green tire handling, including the ADAM AMR solution, press delivery systems and distribution environments.”

The Tire Technology Expo is the most highly regarded annual tire conference in the world with attendees coming from more than 45 countries. RMT Robotics’ presence at the conference represents the company’s continued commitment to advancing automation in the global tire market.

About RMT Robotics

RMT Robotics (www.rmtrobotics.com), a Cimcorp Oy Company, is a global company that manufactures and integrates turnkey robotic gantry-based order fulfillment and tire handling solutions designed to reduce operating costs and streamline operations.

To extend the flexibility of robotics beyond a fixed workspace, RMT Robotics also manufactures and integrates ADAM™, the category-defining intelligent mobile robot. The ADAM system redefines the purpose and function of industrial AGVs by performing intelligent robotic transport of materials in complex, random origin to random destination industrial environments.

Since 1981, RMT Robotics has been recognized around the globe as an innovator in robotics materials handling. RMT helps our customers compete in an increasingly aggressive and price-sensitive global marketplace by providing best-in-class robotic handling solutions.
